## Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. As a large portion of the fund is invested in less developed countries, you should be prepared to accept significantly large fluctuations in the value of the fund. As this fund is invested in a particular country, you should be prepared to accept greater fluctuations in the value of the fund than for a fund with a broader investment mandate. The fund may invest in certain securities listed in China which can involve significant regulatory constraints that may affect the liquidity and/or the investment performance of the fund. The fund invests in a limited number of holdings and is less diversified. This may result in large fluctuations in the value of the fund.

## Fund Strategy

The fund aims to achieve long-term capital growth by investing in the equity or equity-related securities of companies with exposure to China. The team makes use of a bottom-up, selective approach to invest in companies that display sustainable leadership and competitive advantages, while trading at a discount to their view of fair value. A well-resourced and experienced team engages in on-the-ground research to gain an informational advantage. Environmental, Social and Governance (ESG) considerations are fully integrated in the investment process.

**Past performance does not predict future returns.** The performance period shown here starts on the last day of the first indicated month and ends on the last day of the last indicated month.

\*At Invesco we continuously monitor any applicable sanctions, including those imposed by the UN/US/EU and UK. These sanctions may preclude investments in the securities of various governments/regimes/entities and as such will be included in our compliance guidelines and workflows (designed to ensure compliance with such sanctions). The wording of international sanctions is something that we pay particular attention to as there are occasions where sanctions can exist in limited form, for example allowing investments in the secondary market. In addition to sanctions targeting entire countries, there are other thematic regimes, which may focus for example on human rights, cyber attacks, terrorist financing and corruption, which may apply to both individuals and/or entities/corporations.

Any investment decision should take into account all the characteristics of the fund as described in the legal documents. For sustainability related aspects, please refer to: <https://www.invescomanagementcompany.lu/lux-manco/literature>.
