Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Investments in small and medium sized companies involve greater risks than those customarily associated with larger companies.

Fund Strategy

The fund, which is predominately invested in developed markets, is managed as two regional sub-portfolios, EAFE (Europe, Australasia and Far East) and the US. Michael Oliveros is the lead fund manager and oversees the fund's asset allocation process and the day-to-day management of the EAFE sub-portfolio. Juan Hartsfield is responsible for stock selection within the US sub-portfolio. In terms of the EAFE portfolio, Michael is supported by specialists in Europe, Asia and Japan as well as drawing on the regional knowledge and experience of the broader Global Smaller Companies Group (GSCG).

Past performance does not predict future returns. The performance period shown here starts on the last day of the first indicated month and ends on the last day of the last indicated month.

Indexed performance*

Cumulative performance*
